Go wild and find adventure with the **all-new** GO-FIND series.

# GO\*FIND 22

METAL DETECTOR

GO\*FIND 22

Solve mysteries and find fortunes with the all-new GO-FIND 22 by Minelab — a compact detector for beginners that's big on simplicity. With its two Find Modes and Easy-Trak technology the GO-FIND 22 will have you detecting like a pro in just minutes. And recovering more finds time after time. It's the perfect detector to ignite your passion for detecting whether you're searching on land or in the water.

## THE SMART DETECTOR CHECKLIST

- COMPACT:** Size Matters. Simply unfold and away you go.
- LIGHTWEIGHT:** 20% Lighter\* - Detect all day. And the next.
- EASY-TRAK:** From parks to beaches. Just set and go.

*\*Based on similar competitor offerings*

**FIND MODES:** Icons flash to tell you what you've found. You can even tell GO-FIND what sets of objects you want to target by selecting up to four pre-set modes.

**COMPACT AND LIGHT:  
SIZE MATTERS. SIMPLY  
UNFOLD AND AWAY YOU GO.**

One of the first things you'll notice when you grab a GO-FIND 22 is how light it is. With no assembly required and pre-set controls, you'll be detecting in just minutes. Simply unfold, turn-on and its ready to go.

**EASY-TRAK  
FROM PARKS TO BEACHES.  
JUST SET AND GO.**

The GO-FIND 22 is truly the 'turn on and go' detector. While other detectors require you to learn about complicated 'ground balancing' techniques, the GO-FIND intelligently senses what type of ground you're on. So you can easily move from the park to the beach without having to adjust your detector or put it in a special mode. Put simply, GO-FIND's Easy-Trak automatically reduces ground noise and maximises target signals. And that means you'll find more treasure and less trash. GO-FIND with Easy-Trak: It's detecting made simple.
