Push the front swivel wheels in to the shaft until it clicks in securely.

Push the back wheels in to the shaft until it clicks in securely. Make sure the concave area of the wheel stand is lined up with the convex area of the shaft.

Turn the middle area of the carry case from the outside of the cart to the inside. Secure the elastic straps on the carry case to the black pegs on the cart. Insert the baseboard in to the cart and lay it flat.  
Warning : To avoid a pinching hazard, DO NOT touch the bottom steel parts when opening or closing the cart.

Use the brake when necessary

Unzip the rear area of the cart if you need to transport any long items. Fix the panel with the hook and loop provided.

Pack up:

Collapse inwards and push together. Use the side lock to secure.

Zip up the carry case and put the base board in to the side pocket. Press the red button on the side of the wheel shaft if you need to remove the wheels.
